### Features:

- Weight: 0.477lb
- Material: 6063 T5 Aluminum
- Hardware Material: 300 Series Stainless Steel
- Compatible with most degree tilts

## *Adjustable Tilt - Front Leg*

### **Installation Overview**

- Locate rafters and chalk horizontal and vertical lines to mark location of penetrations. Drill 1/4" holes and backfill with sealant.
- Take 5/16" x 3/5" lag bolt and tighten into rafter.
- Adjust 2x2 angle to desired tilt and tighten nut until 2x2 angle is locked in place.
- Use T-Bolt Assembly to attach rail to front leg.
